For further information please visit: <http://uttnext.com/>

Co-hosts of the studio mobil / think tank station at Naschmarkt:

uttnext (Hubert Klumpner, Michael Walczak), uttnext Medellín (Alejandro Restrepo-Montoya, Diego Ceresuela-Wiesmann), Antonio Scarponi (Conceptual Devices)

uttnext imagines the Naschmarkt in Vienna as a climate corridor with a concrete, co-designed prototype that can be experienced on site.

In doing so, uttnext Medellín use knowledge related to green corridors for Vienna. Antonio Scarponi (Conceptual Devices) provides instructions with his project

ELIOO: How To Go To IKEA And Build An Hydroponic Device To Grow Food In Your Apartment .
